Thermostatic rainfall shower set

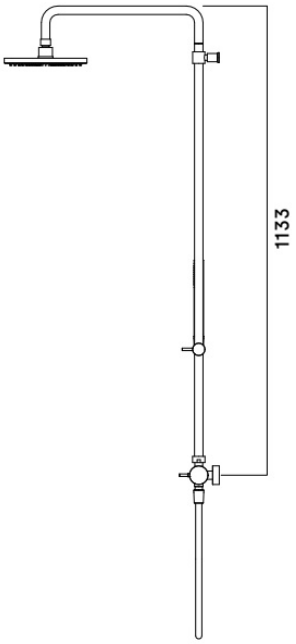

Water Evolution Flow / T1.41TN

200 mm / slim wand

300 mm / round handset

Catalogue drawing

Choose your set

Overhead size	200 mm in every finish. The larger head is 300 mm, or 250 mm in Black.
Hand shower	Slim cylindrical wand or round ABS handset.
Mixer and column	Exposed thermostatic bar, two outlets and two wall connections.
Dimension shown	1133 mm from the mixer centreline to the top of the column.
Flow rate	12 litres per minute at 3 bar, as listed by Water Evolution.

What comes with the set

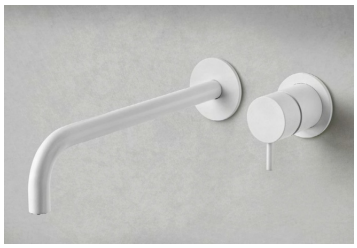

One thermostatic mixer, rigid column, wall support, overhead shower, adjustable holder, one selected hand shower and a flexible hose.

The gallery shows finish visualisations based on Water Evolution product photography. The following pages pair both handset styles with the supplier's finish photographs.
