A World of Design Options

PS Flush Plates and Duplo S Installation Systems

The PS range of flush plates offers an inspiring array of design possibilities, combining innovation and style to suit all tastes. Featuring the latest cable technology, these sleek, compact flush plates are available in a variety of finishes and styles to effortlessly enhance any bathroom décor.

The perfect complement to PS flush plates, Duplo S installation systems offer unparalleled versatility and innovation, designed to suit a wide range of bathroom configurations. Whether renovating or building from scratch, these systems ensure seamless installation and easy maintenance, providing the flexibility to create a bathroom that is both visually stunning and highly efficient.

Together, the PS range and Duplo S systems take bathroom design to new heights, combining refined aesthetics with advanced functionality. These solutions embody the essence of exceptional design, offering the adaptability and performance needed to create spaces that inspire and endure stylish, functional bathroom design.

PS Plates & Duplo S

PL Flush Plates and Duplo One Installation Systems

Enhance your bathroom with Roca's PL flush plates – the perfect blend of contemporary design and functionality. Designed to complement the Duplo One installation systems, these flush plates are available in a wide choice of finishes, including chrome, matt finishes, brushed brass and onyx, offering the flexibility to suit any bathroom aesthetic.

Each plate features dual-flush technology for improved water efficiency, supporting sustainable living without compromising on performance.

Roca's Duplo One installation systems are engineered for strength, simplicity, and lasting performance. Designed to provide a durable and discreet solution for wall-hung and back-to-wall WCs, Duplo One offers easy installation, outstanding load resistance, and complete compatibility with Roca's wide range of PL flush plates. The compact frame design allows for maximum space optimisation in bathrooms of any size.

PL Plates & Duplo One

PS Plates

For Duplo S Installation Systems

PS flush plates enable the creation of a bespoke bathroom design with versatile and stylish solutions to meet a wide range of customer requirements. Each version combines advanced technology with aesthetic appeal, offering a stunning range of finishes and a variety of styles. The electronic models also feature touch-free operation and customisable lighting.

The PS collection of flush plates has been designed to inspire and allow the creation of highly personalised bathroom spaces. It offers endless possibilities with an impressive range of finishes, including PVD, vibrant colours, glass, concrete, ceramics, slate and wood.

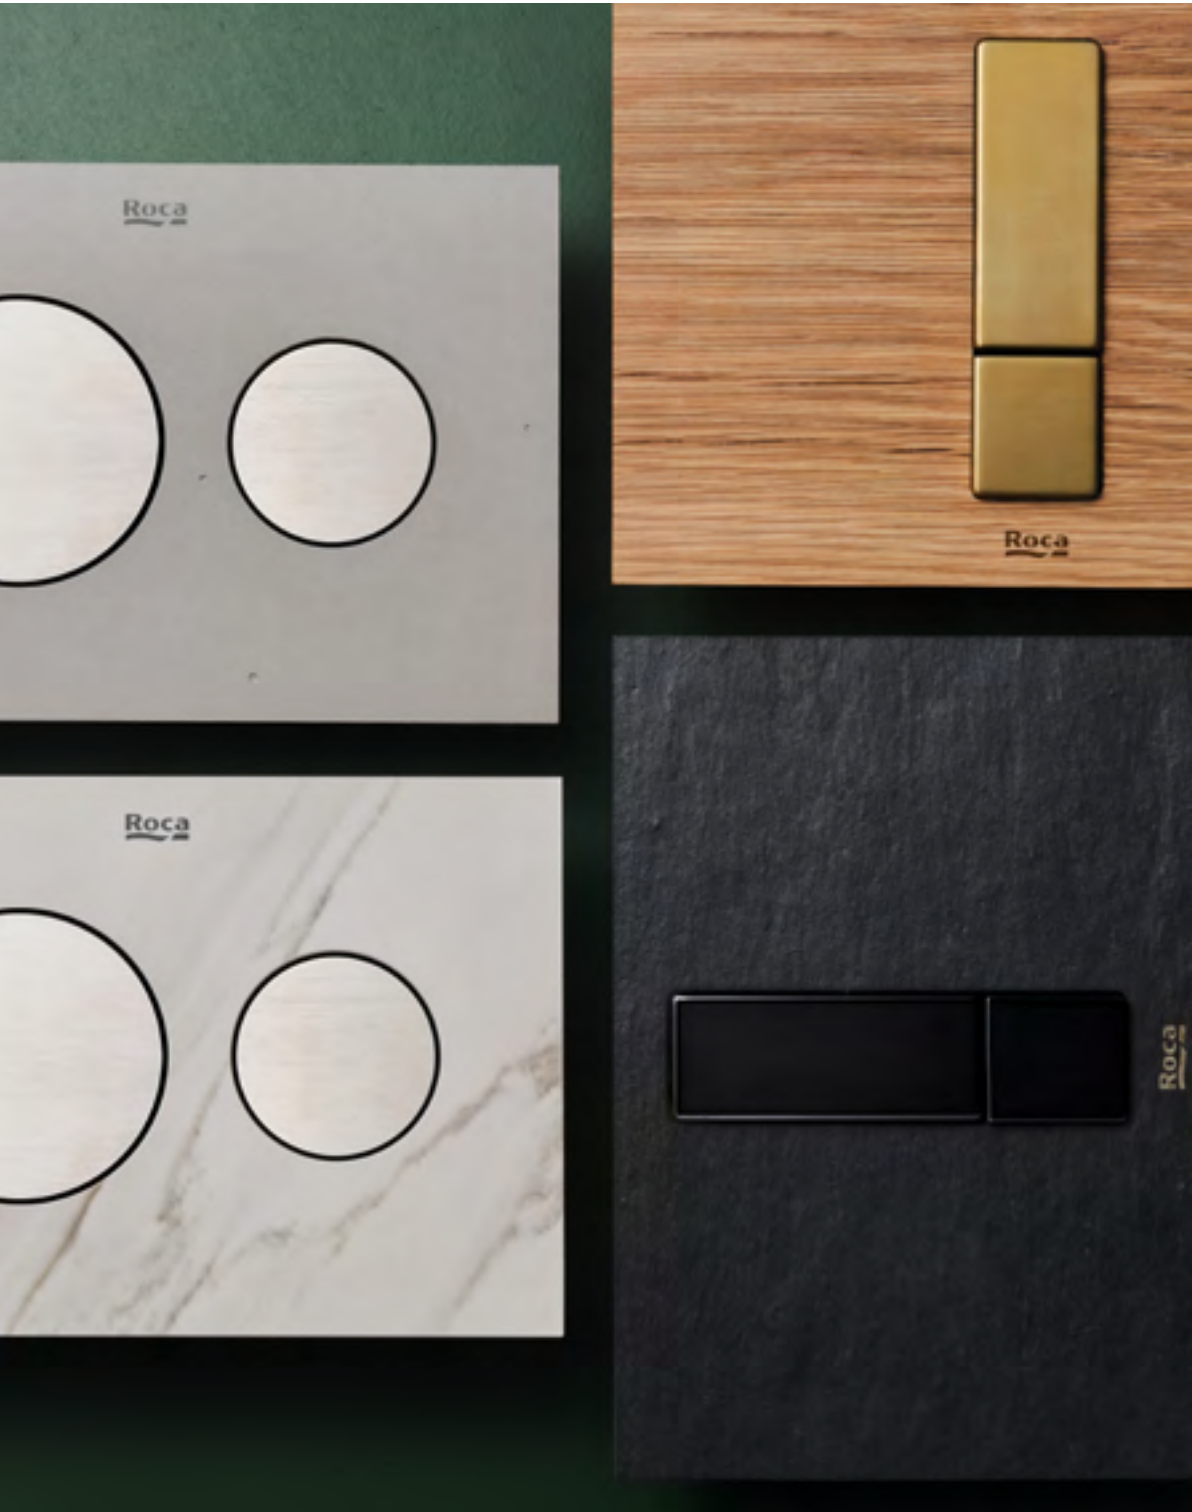

The Glow of Elegance

A versatile and timeless choice, the subtle warmth of brushed brass adds a touch of sophistication. Suitable for any bathroom style, this finish creates understated yet striking focal points.

PS flush plates are available in luxurious PVD finishes, including titanium black, rose gold, brushed titanium black, brushed brass and stainless steel. These elegant and durable finishes add a touch of sophistication to any bathroom.

PS4 dual flush plate in brushed brass

Material Expressions

For an elevated solution that goes beyond the conventional, PS presents an enticing selection of materials, that includes ceramics, concrete, slate, glass and wood. These materials offer a wealth of inspiration, each with its own distinctive appeal and character, to suit any bathroom design and allow users to create spaces that reflect their unique taste and personality.

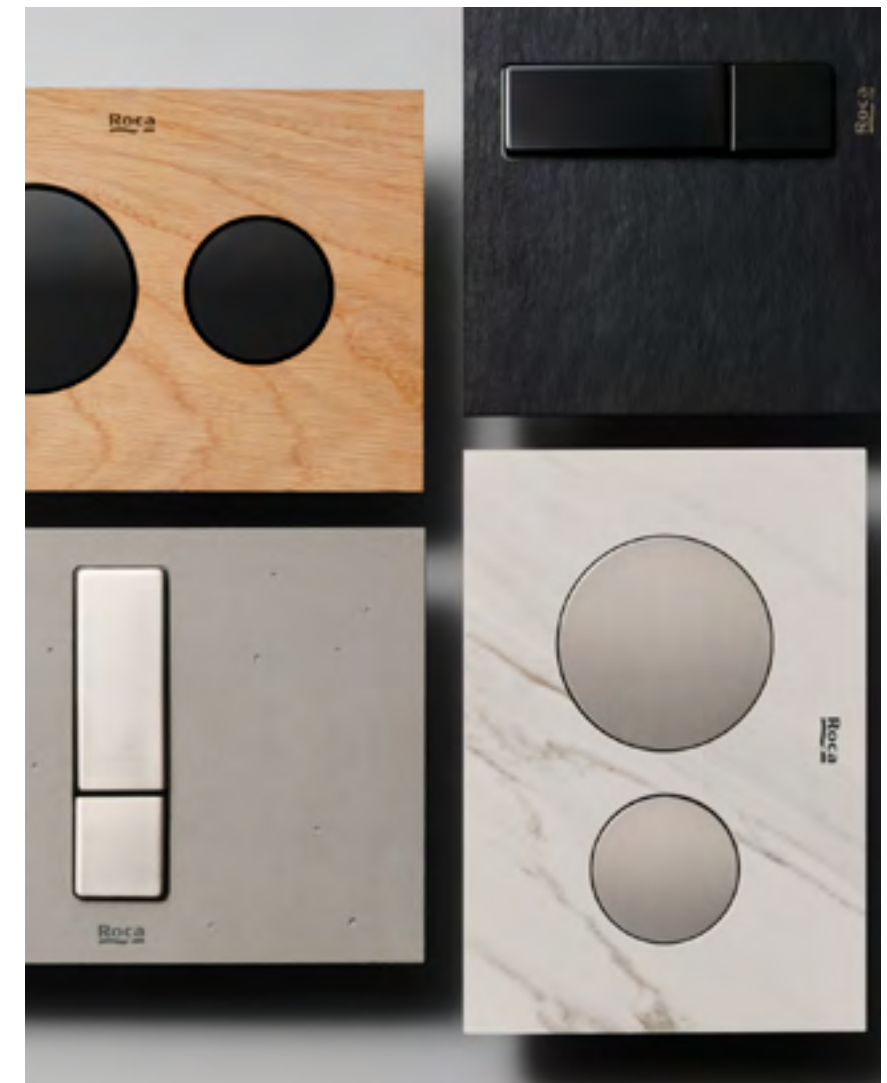

PS4 dual flush plate in glass white with rose gold buttons / Ona basin mixer in rose gold

PS4 dual flush plate in oak with rose gold buttons / Targa extended basin mixer in brushed brass

PS3 & PS4 Flush plate customisation

Endless Possibilities

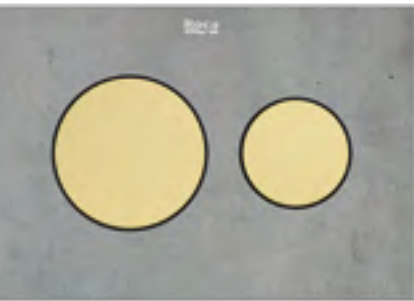

Design a bathroom to reflect an individual style, right down to the flush plate with this simple and intuitive customisation option.

Make it unique

Personalisation is at the heart of modern bathroom design. PS3 and PS4 dual flush plates offer endless possibilities to create a truly unique space.

Step 1 - Select your flush plate design: PS3 or PS4

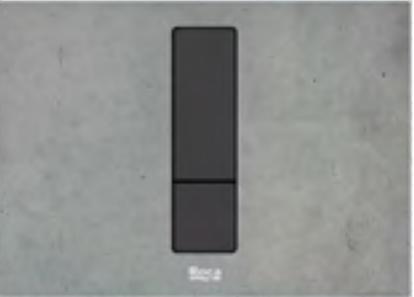

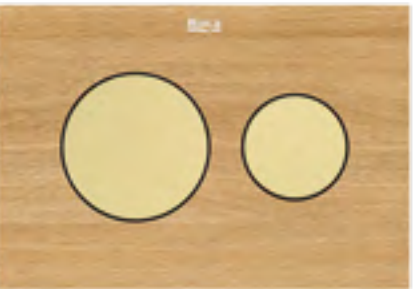

PS3
A stylish design with simple round buttons, one large and one small, that embraces softness and fluidity while offering both elegance and functionality.

PS4
A sleek, vertical design that is discreet and versatile.

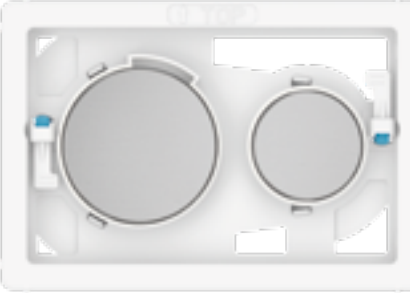

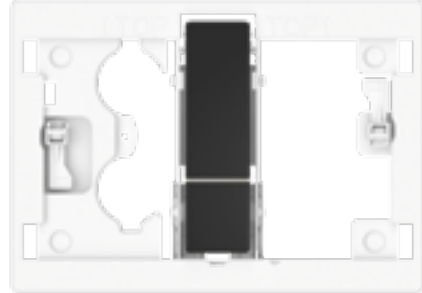

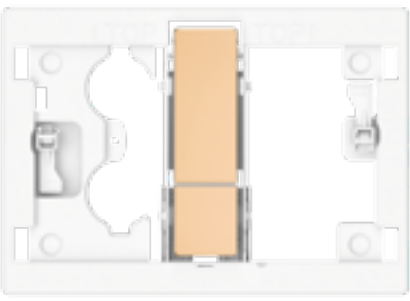

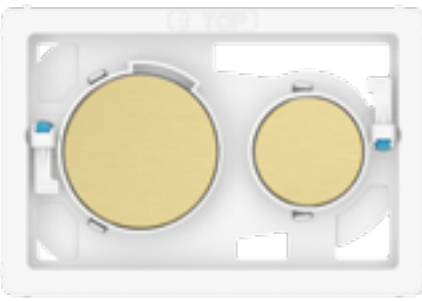

Add to the bathroom décor with one of two flush plate designs.

Step 2 - Choose your flush plate finish

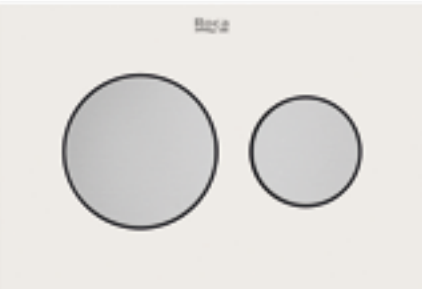

Discover the wide range of finishes to add a distinctive look and feel.
(See page 28 for available PS3 finishes and page 29 for PS4 finishes)

Step 3 - Choose your flush button finish

Add the finishing touch with the perfect button colour for the chosen flush plate.
(See page 28 for available PS3 finishes and page 29 for PS4 finishes)

Step 4 - Complete your personalised flush plate design

PS3 dual flush plate in white ceramic with stainless steel buttons

PS4 dual flush plate in marble with titanium black buttons

A completely unique flush plate to suit any personal taste.

PS3 dual flush plate in matt black with brushed brass buttons

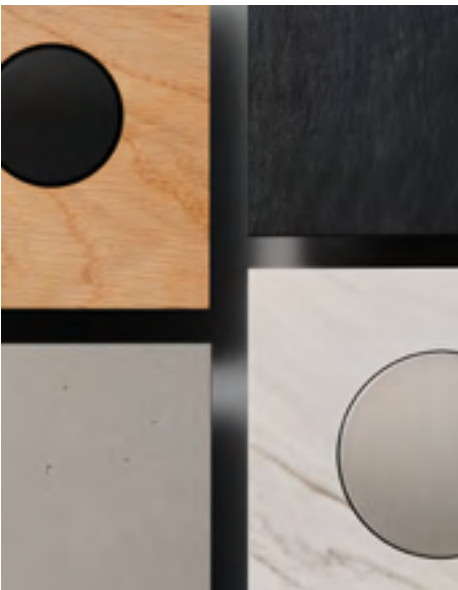

PS3 dual flush plate in concrete with stainless steel buttons

Seamless Style

Roca's PS solutions offer a new approach to bathroom aesthetics, with flush plates that seamlessly blend into walls to create a unique and integrated aesthetic. This unique solution is available for PS3 and PS4 dual flush plates.

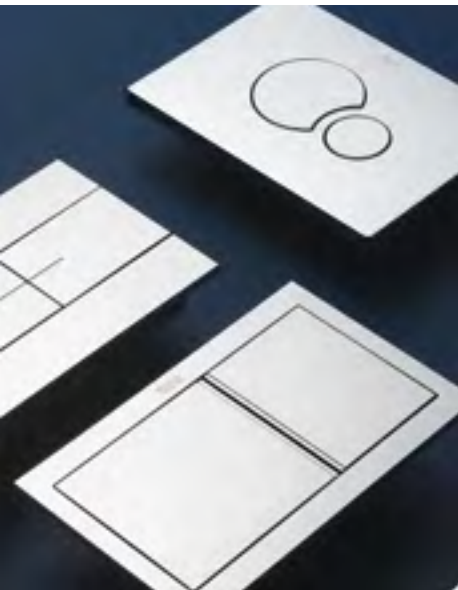

PS Plate Features for Duplo S Installation Systems

Expanded Finishes

Wide range of finishes, including luxurious PVD colours, vibrant hues from the Nu collection, and an enticing selection of material finishes.

Modern Choices

A range of design options.

Electronic Version

Electronic version with touchless automatic flush, seven light colours, hygiene flush and Roca Connect connectivity.

Cable Technology

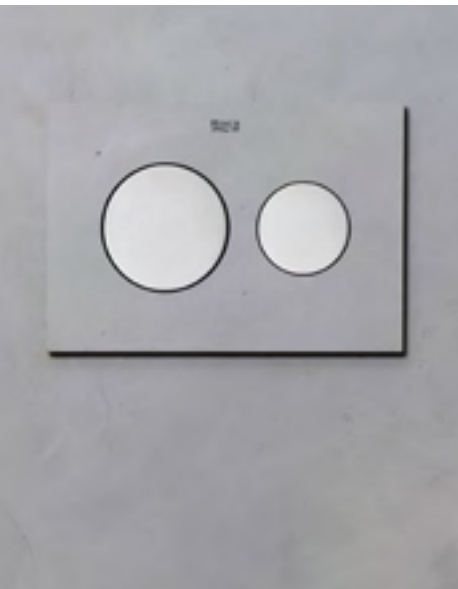

More and varied design possibilities, easier installation and an actuating force below 20N.

Customisation

Simple and intuitive customisation option for PS3 and PS4 flush plates.

Small Flush Plates

New range of smaller flush plates available in a variety of textures, colours and materials.

Duplo S Installation Systems

Innovation behind the wall

Duplo S is a top-of-the-range installation system collection with small and slim plates, available in a variety of new finishes and colours, totally compatible with all Roca toilets. This compact, silent and water-saving solution uses cable technology to guarantee a very soft touch and easy plate assembly without the need for additional tools.

Duplo S Installation systems offer the adaptability to create a bathroom that is not only visually stunning but also remarkably efficient. With adjustable flush volumes and innovative features including automatic flushing and backlighting, the system enhances both functionality and water conservation, setting a new standard for modern bathroom design.

Duplo S Installation Systems Features

Versatile Solution

A highly adaptable installation that guarantees seamless compatibility with the majority of Roca toilets. Duplo S is equipped to accommodate various installation configurations.

Efficient Water Management

Advanced water-saving technology, designed to provide precise control over flushing volumes.

Flush volume can be easily adjusted to individual needs with 6/3l, 4.5/3l and 4/2l options.

Quick and Easy Installation

Designed for convenience and maximum efficiency, Duplo S combines cable technology with practical adjustment features for increased flexibility and installability.

Cable technology guarantees fast plate assembly without tools. Other features to simplify the process include an easy height adjustment mechanism with brake system for precise adaptability, easy adjustment of the position and angle of the outlet pipe and easy adjustment of the feet using a rotation system.

Maximum Comfort

Soft touch made possible by innovative cable technology.

Quiet in operation, less than 20 DBA, meeting EU standards

PL Plates

For Duplo One Installation Systems

PL flush plates offer a stylish and practical solution, combining modern design with a wide range of finishes to seamlessly fit into any bathroom.

Electronic designs

EP-1 and EP-2 Electronic operating panels can be personalised with the choice of different LED colour finishes and various operating functions, such as auto-flush, pre-flush and touch-free flush options.

EP-2 electronic flush plate in white glass

Duplo One Installation Systems

Meticulously designed to seamlessly fit into any bathroom. Duplo One installation systems offer adaptable features and a range of solutions, including silent flush and adjustable options to ensure effortless installation. Water-saving is core to the design of all Roca's installation systems.

Duplo One Installation Systems Features

Compact solutions

Compact options are available, ideal for bathrooms with restricted space.

Noise reduction

Insulated cistern reduces condensation and noise levels when refilling the cistern.

Adjustable

Easy height adjustable legs offering various installation heights for different floor types.

Easy maintenance

Future maintenance can be easily performed through the operating panel.

Duplo One Features

- 01 **Resistance**
Stainless steel frame capable of holding up to 400kg.
- 02 **Noise reduction**
Insulated cistern reduces condensation and noise levels when refilling the cistern.
- 03 **Quality assured**
Flush valve longevity of over 200,000 cycles offering long lasting performance.
- 04 **Toilet fixings points**
A choice of fixing points of 180mm or 230mm suiting all Roca toilets.
- 05 **Adjustable height installation**
Adjustable legs offering various installation heights for different floor types.
- 06 **Easy Maintenance**
Future maintenance can be easily performed through the flush plate.
- 07 **Water-saving**
Dual flush valves can be set at 4.5/3 litres or 6/3 litres.
- 08 **Peace of mind**
Guarantee of 5 years for the cistern and 10 years for the frame.
- 09 **Space-saving solutions**
Compact options are available, ideal for bathrooms with restricted space.
- 10 **Easy installation**
All relevant fixing kits are included

Our contribution to a more sustainable future for all

Our commitment to sustainable growth and development prioritises the wellbeing of people and the planet. This commitment is reflected in our efforts to foster strong societal relationships and support communities, as well as initiatives in decarbonisation, eco-design and circularity. We create high-quality, durable products by considering their entire lifecycle, from carefully selected materials to optimised transport methods. Our aim is to combine the needs of society with environmental responsibility to deliver solutions that benefit everyone.

Products	Technologies	Initiatives	Commitment
Dual-flush mechanism. Dual flush cisterns offer adaptable water use, ensuring efficiency for different flushing requirements while reducing overall water consumption. Smart shower. Smart shower solutions allow programmable shower options and monitor water usage to encourage responsible and sustainable use. W+W. Integrating the washbasin and toilet into a single piece, this internationally acclaimed design reuses water from the washbasin to flush the toilet. Certificates. Many of our products are made from FSC®—certified wood. Our water-using products carry the Unified Water Label water efficiency labelling system to help consumers understand the water and energy use in these products.	Cold Start. Cold Start technology prevents unnecessary boiler activation by defaulting to a cold water start position. This innovation saves energy and reduces emissions released into the atmosphere. Aerators. Faucet spouts with aerators that mix air with water help to reduce the flow rate while maintaining the same functionality and comfort. Thermostatic faucets and fittings. Quick Reaction® technology delivers desired temperatures rapidly and an eco-stop button contribute to water conservation in showers.	Pioneering sustainable ceramics Our recent partnership with Keramischer Ofenbau marks a significant step towards sustainability as we launched the world's first electric tunnel kiln for the production of sanitaryware. This pioneering initiative positions us as a global leader in the operation of a net-zero sanitaryware manufacturing facility, setting a new standard for the industry. Through collaboration and innovative technology, we aim to lead the way to a sustainable future for the ceramics industry.	Sustainable and Ethical Commitment Roca Group is committed to implementing responsible business practices that prioritise environmental protection, social responsibility and ethical behaviour. EcoVadis Platinum Medal recognises Roca Group's outstanding sustainability performance.
FSC www.fsc.org FSC® C172509 Unified Water Label		We Are Water For over a decade, the We Are Water Foundation has promoted global hygiene and sustainable water management, improving access to clean water and sanitation in disadvantaged regions while raising awareness and providing training.	United Nations Global Compact, sustainability forms an integral part of our commitment and we work in line with the targets of the Sustainable Development Goals. * Data from 2018-2023 ** Data from 2023

Roca is a family-owned company dedicated to the design, manufacturing, and sale of bathroom solutions for architecture, construction, and interior design. Founded in Barcelona in 1917, it combines tradition and knowledge with a passion for innovation and respect for the environment.

With sustainability as a key element in all its processes and a commitment to ensure a better planet for future generations, Roca is present in 170 countries, operating 78 factories across the five continents with more than 20,000 employees.
